FOR IMMEDIATE RELEASE

TMI TO PARTNER WITH DATA TECH TO BRING TELECOM REGULATORY SUPPORT TO BILLING ASSURANCE SOLUTIONS

June 7, 2016 – Maitland, FL-based Technologies Management, Inc. (TMI) and Ellijay, GA-based Data Tech CABSPros announced their special project partnership that will provide regulatory support and compliance expertise to Data Tech's billing and margin assurance solutions. This partnership creates the perfect balance to promote a better understanding of the relationship between regulatory obligations and the importance of controlling CABS and Access costs, while maximizing company revenues. All are critical components for growth and innovation in this competitive environment.

"Data Tech provides services to most of the Nation's top 10 Cable MSO CLECs with a very high degree of customer loyalty. TMI is similarly situated. We have worked with Data Tech for a number of years and are extremely pleased to be partnering with such a dynamic, highly regarded company," stated Tom Forte, Director of Business Development at TMI. "Managing intercarrier billing and maintaining margins is challenging. Doing so and remaining compliant has never been more demanding. The combined resources and strengths of Data Tech and TMI offer the industry solutions to reciprocal compensation, intercarrier billing, and cost management while maintaining best practices in meeting regulatory obligations. We know that our customers will recognize the benefits of this partnership."

"We are very excited about our partnership with TMI" stated Jon Jones, CEO at Data Tech. "Our services and customer bases are very complimentary and a natural fit. We have served joint customers for years and our experience has always been that TMI was a top performer in the compliance space based on our own experiences as well as the very positive feedback we have received from our customers. We know that our customers expect us to align ourselves with strong partners as we provide robust solutions for all aspects of intercarrier margin assurance, and this partnership goes a long way in helping us to fulfill that expectation. Best-of-breed partners help us to deliver best-of-breed results, and we are very confident that this partnership will help us meet that objective and provide many win-win scenarios, especially for our collective customers."
